## NEXT STEPS

Like a compass that will help us navigate through consistently changing terrain, the Social Sustainability Strategy’s main goal is to point us in the right direction. By thinking big, being open to change, working more collaboratively, and tapping into a deeper level of compassion, we can build a community that is more connected, inclusive, and resilient. Since we envision a future where everyone can both enjoy and contribute to a great quality of life, we encourage you to join us in building our thriving community.
