## Township of Langley Sprinkler Requirements

---

20338 65 Ave., Langley B.C. V2Y 3J1

Phone 604-533-6018

---

In light of the complexities of sprinkler systems, additional information will be required when making application for the installation of sprinklers, including a revised Fire Protection Permit Application Form. The following information will be required when making any application for the installation of sprinklers:

**For the installation of any new sprinkler system in all buildings:**

- # Completed Fire Protection Permit Application form.
- # Three (3) sets of signed and sealed P. Eng. Sprinkler drawings.
- # Schedules B1 & B2 letters.
- # Three (3) sets of hydraulic calculations.
- # Completed Owner's Information Certificate.

**For the installation and adjustments of sprinkler heads as part of an existing system:**

- # Completed Fire Protection Permit Application form.
- # Three (3) sets of sprinkler drawings and calculations (may or may not be required if less than 9 sprinkler heads and may or may not require P. Eng.).
- # Completed Owner's Information Certificate.

**Spray Booths:**

- # Power ventilated paint spray booths and areas where flammable liquids are stored must be protected to "extra hazard" standards.

**General Information:**

- # The contractor must have a Trades Qualification Certificate (T.Q.) and Township of Langley Business Licence.
- # A permit for a backflow device will be required if not already installed.
- # Schedule "Cs" are required upon completion of a project.
- # All information provided must be complete so that a permit may be issued in a timely manner.

For any enquires, please contact the Fire Department at 604 532 7500
