

## Candidate Statement

Grant Gilmour

I am the father of four graduates from Langley. I am an accountant with experience in financial management in tough times; and of course, good times. My accounting Practice Gilmour Group CPA started in Langley 26 years ago. As a Langley business owner through several recessions, I have learned the value of the right choices versus the quick choices.

We are at a time of great change. COVID-19 has turned most of our lives upside down, and has shown us how old systems either worked or failed when new realities arrived. We need to teach our students to adapt. This great change is an opportunity to change our school system for the better.

I believe in Community Service. As a Rotarian for 20 plus years I ran the Dictionary Project giving a Dictionary to every Grade 4 student in Langley. (25,000 dictionaries). Students still recognize me as the Dictionary man.
