

Candidate Statement

Stacey Wakelin

Public education is the cornerstone of our communities. Stacey has a student-centered approach and knows student learning must balance academic success, and mental and physical well-being. She will strive to ensure all students feel safe and valued for who they are, with staff supported in creating an environment that nurtures growth and innovation.

Stacey is a proven leader and collaborator who spends her time engaged in community building work: organizing outreach events, leading workshops with newcomers, being a voice for equality for LGBTQ2S+ youth, and anti-racism work. She leads with her values of inclusion and equity, and is an advocate for change in the province.

Stacey believes that effective leadership prioritizes meaningful engagement with students, families, staff and education partners. Stacey is unafraid of moving beyond the confines of the old-school, status quo—that is what our district needs moving forward, and that is exactly what she will do.
