Langley

Est. 1873

NEWS RELEASE

FOR IMMEDIATE RELEASE: August 29, 2018

Dry Conditions Postpone Fall Burning Season

Due to extreme weather conditions, the Township of Langley Fire Department advises residents that burning permits for the autumn burning season will not be issued until there is a significant amount of rainfall and conditions are not so dangerously dry.

Until the weather conditions change, the Township has zero tolerance for burning offences and those who contravene the ban will face fines exceeding \$200.

Township's autumn burning season runs between September 1 and October 31, weather permitting.

Residents will be alerted through the Township of Langley's website at tol.ca, Facebook, Twitter, and the Township Page in local newspapers when burning permits are being issued.

Residents are also reminded that those who want to cook outdoors can use natural gas or propane fires contained within appliances approved by the Canadian Standards Association.

For more information, visit tol.ca/burning.
