

TOWNSHIP OF LANGLEY

SOIL DEPOSIT/REMOVAL APPLICATION PROCESS SIGNAGE REQUIREMENT

Please note: An applicant may be required to complete the following for proposed soil deposit and/or removal applications of 600 cubic metres (80-90 loads) or greater:

Signage

Applicant is required to purchase and install an information sign in accordance with municipal standards, format, and specifications (see below) at the proposed fill site.

All expenses associated with the construction, painting, erection, and removal of the sign are the responsibility of the applicant.

- 1) Sign must be 4 x 8 feet (120cm x 240cm) and green (Township color code PMS 341C).
- 2) Sign background colour and lettering must be adhered directly onto 3/4" plywood.
- 3) Sign must be obtained from professional sign maker (see list below).
- 4) Applicant is responsible to provide sign format & specifications to selected sign maker.
- 5) Sign must display the official Township emblem.
 - a) Digital emblem has been given to the local service providers listed below;
 - b) If you have selected a different sign maker, please contact Township staff to have the appropriate Township emblem emailed to the sign maker.
- 6) Sign must be erected wholly on the subject property.
 - a) Sign must be visible and unobstructed;
 - b) For corner lots, the sign must **not** be erected within the triangular area created by a line joining two points 7.5 metres back from the corner of the lot, of each lot line abutting the intersection;
 - c) Sign must **not** be installed within the municipal boulevard on public property.
- 7) The applicant **must notify** Township staff upon completion of sign installation. The application will be delayed until notification is complete.
