## NOTICE OF ACTIVITY PRE-CONSTRUCTION SURVEYS

**LANGLEY, BC  
MARCH- APRIL 2020\***

In preparation for Trans Mountain Expansion Project construction in the Lower Mainland region of BC, and pending receipt of the necessary regulatory approvals and permits, Trans Mountain and its contractors will be locating existing underground utilities and conducting land surveying along the Trans Mountain Expansion Project route starting mid-March 2020\*.

During the course of this work, small potholes will be bored at targeted locations using a hydrovac truck and/or hand excavation. Exposed underground utilities will then be surveyed within municipal roadways and in properties where the Expansion Project pipeline will cross buried municipal utilities. This work will help inform construction planning and confirm construction techniques planned in these areas.

All work will be conducted under Environmental Protection and Emergency Response Plans to ensure compliance with applicable environmental regulations and requirements. We will abide by applicable bylaws and permitting requirements, and will work as quickly as possible to complete these activities with minimal disruption.

*\*Timeline subject to change*

## NOTICE OF ACTIVITY PRE-CONSTRUCTION SURVEYS

**LANGLEY, BC  
MARCH- APRIL 2020\***

### WHAT YOU MAY NOTICE

The public may notice the following activities:

- Hand digging and/or hydrovac excavation
- Asphalt cutting and paving/patching
- Associated intermittent construction-type noise
- Site surveying at multiples points
- Temporary short-term lane closures and temporary parking restrictions while work is underway; traffic control signage and flagging will be in place

The following measures will be in place to ensure Trans Mountain maintains a safe work environment with minimal impacts to the public and the environment:

- Activities will mainly take place between 7 am and 5 pm, Monday to Friday; we will aim to complete surveying activities in the roadways outside peak hours to minimize traffic impacts
- No work is planned on Saturday, Sunday, and statutory holidays
- Dust control measures will be in place
- Site-specific traffic management plans will be used to minimize impacts to the traveling public
- Upon completion, the surveyed locations will be restored to municipal specifications and requirements

The public's patience is appreciated as we work to minimize any disruptions or inconvenience associated with pre-construction activities.
