

LANGLEY DEMONSTRATION GARDEN

6-10
YEARS

2021 ECO EXPLORERS KIDS' CAMP

POLLINATOR POWER

July 6, 7, and 8

Learn what all the buzz is all about – take a virtual tour of a mason bee home and learn how to create your own!

CLOSE THE LOOP

July 13, 14 and 15

We've all heard of the 3 R's – reduce, reuse, recycle. Now, let's put them to practice! Learn about recycling in Langley and create a reusable, recycled T-shirt bag.

BE A BOTANIST

July 20, 21, and 22

Study the plants around you from trees to seeds! Take a virtual tour of the edible plants in the demonstration garden and become a botanist chef by making your own sun tea.

WATER, WATER EVERYWHERE

July 27, 28, and 29

Explore how water gets from the clouds to your tap and design an experiment to watch the water cycle at work in your own home. Discover why it's so important to conserve our drinking water!

FEATHERED FRIENDS

August 3, 4, and 5

Tweet tweet! Make friends with your backyard birds by learning how to identify them and building them their own cozy home. Includes an up-close look at some special feathered friends.

BUG BONANZA

August 10, 11, and 12

Beautiful bugs are all around us – and some even need our help! Discover the bonanza of bugs that call Langley home and make your backyard hospitable with a snail hotel.

Hosted by the
**Langley Demonstration Garden
at Derek Doubleday Arboretum
21200 block Fraser Highway**

Cost: \$5 per workshop, per child
Virtual Presentation: 11:00am - 11:45am daily
Days: Workshops are offered Tuesday,
Wednesday, and Thursday

Fully
Virtual!

Pick up Eco Explorer kits on the Monday of each week from LEPS office.
