

TRANSPORTATION INFRASTRUCTURE

The Township of Langley takes pride in providing and maintaining transportation infrastructure for our community. Transportation services and infrastructure are funded through taxes collected from residents and businesses.

forecast
2031

140,200

186,000

POPULATION GROWTH

means the amount of traffic using our roads has increased, placing additional demands on our transportation infrastructure.

Beautiful British Columbia
46,700
vehicles use 200 Street daily*

*on average, north of 80 Avenue (October 2020)

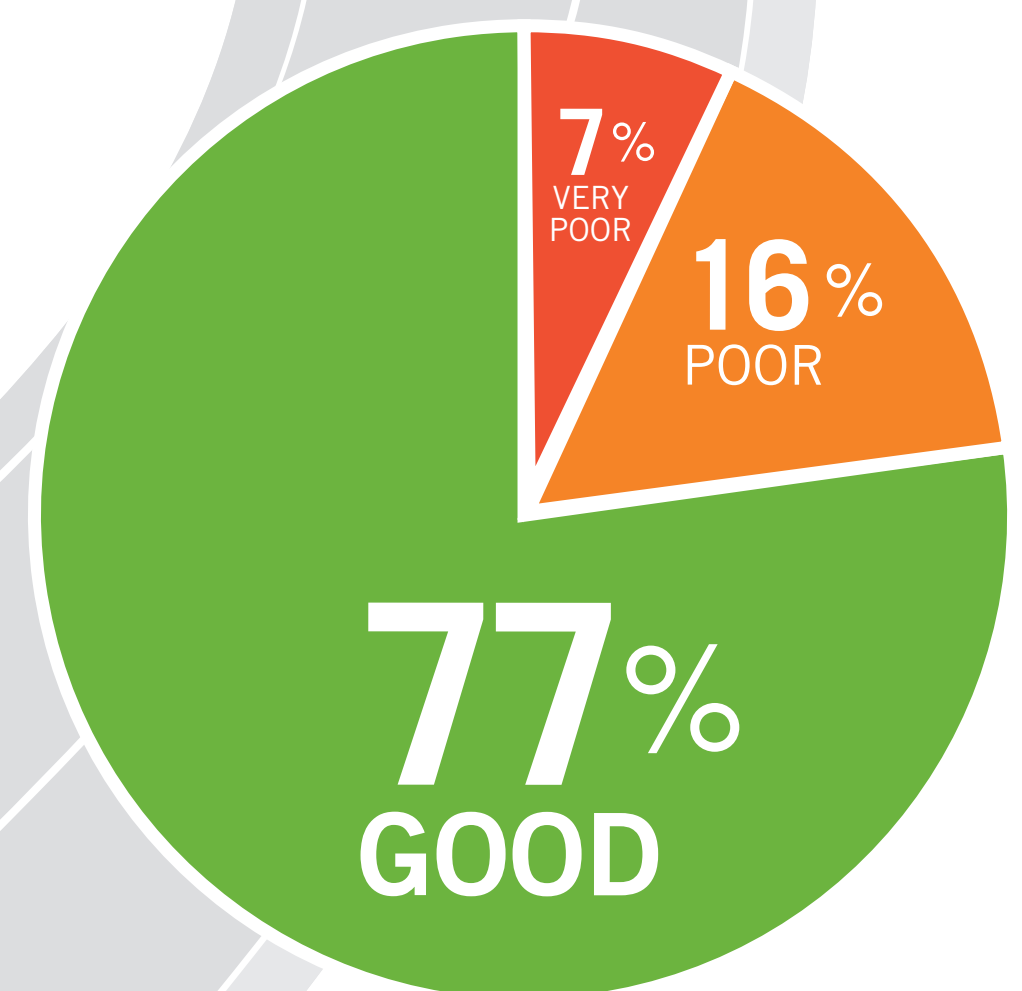

THE TOWNSHIP'S TRANSPORTATION SYSTEM

has grown to include:

CONDITION OF INFRASTRUCTURE

... and much more.

Township of
Langley
Est. 1873

An increase in infrastructure funding is required to continue providing safe and effective transportation infrastructure now and into the future.
