

OCCUPATIONAL HEALTH AND SAFETY GUIDING PRINCIPLES

The Township of Langley is committed to an environment of cooperation and mutual respect among all its employees. Working safely is everyone's responsibility.

Together with the Canadian Union of Public Employees (CUPE Local 403) and the International Association of Fire Fighters (IAFF Local 4550), the Township of Langley will strive to maintain a healthy, safe and respectful workplace.

The Senior Management Team of the Township of Langley is responsible for ensuring that an Occupational Health and Safety Policy is established that integrates and maintains health and safety into all operational activities.

Mayor and Council accept their responsibility to ensure that civic employees are provided with a safe and healthy workplace. The Municipal Administrator, General Managers, Directors, Managers, and Supervisors acknowledge their duties under the Workers' Compensation Act and WorkSafeBC regulations. Workers are responsible for taking reasonable care to protect their own health and safety and that of others affected by their actions.

Contractors will comply with the requirements of the Workers' Compensation Act, the WorkSafeBC Occupational Health and Safety Regulation and all federal, provincial and local laws and regulations. They will ensure their employees are made aware of all known or reasonably foreseeable health or safety hazards to which they are likely to be exposed by their work. They will also follow safe work procedures and report any unsafe acts and conditions to the Township employee overseeing the work.

All Township operations will be carried out in a respectful way; maintaining a workplace free from discrimination, personal harassment, and/or retaliation in which everyone is treated with respect and dignity that promotes the health and safety of employees and the public, as well as the environment and community in which we operate.

SAFETY ALWAYS
