

Candidate Statement

Petrina Arnason

It has been an honour to serve the community for the last four years, and I would be proud to continue my service, if re-elected. I am a full-time Councillor with excellent working relationships with a wide variety of community and government stakeholders established in this term.

With respect to the new Council mandate, there are a number of critical initiatives going forward. These include the Township's new Economic Strategy, Neighbourhood Plans in Brookwood/Fernridge, as well as the Social Sustainability Strategy currently being developed.

There are also a number of specific projects that I have been laying the groundwork for in the past year or two, including the siting and development of a much-needed new medium-sized library in Willoughby, as well as a number of other initiatives that I believe will be beneficial for the Township, as a whole.
