

Candidate Statement

Jonathan Houweling

I'm offering myself for council to represent families, to promote agriculture and local business, and present ideas, discernment, and values. Langley is where I grew up, do business, and where my family calls home. It's where I pay a mortgage and property tax, use services, and commute.

Langley's a great community that can still improve; by enhancing economic opportunity and promoting local products; by honouring individuals, families, and seniors; by reducing congestion and inefficiencies, while proactively developing infrastructure and neighbourhoods with creativity, vision, and collaboration.

Marriage and family is teaching me about compassion, service, and responsible planning. Growing up in agriculture, volunteering locally and internationally, managing risk, and even doing Glow Christmas, has taught me work ethic and the importance of detail. This candidacy has taught me to listen and maintain balance.

I am offering myself to serve, defend, and fight for our Township. I'm truly honoured with your support.

Sincerely,
Jonathan Houweling
