

## Re-Elect Angie Quaale

It has been an absolute privilege serving you for the past 4 years & I very much look forward to continuing my work on the issues that are important to you: access to affordable housing, addressing the needs of our senior & youth populations, working to build more Arts & Performance spaces and maintaining/improving our existing infrastructure and of course, the on-going economic development in Aldergrove. I will continue to find ways to better serve you, our environment, and our farm producers. Working with our Fire Department and RCMP to enhance public safety and crime reduction, economic development as well as building sustainable, walkable neighbourhoods remains a top priority to me. I will continue to be a strong voice for ride sharing, better, more reliable access to transit and EV charging stations throughout the municipality. All of this, while working hard make sure your hard earned tax dollars are well spent.

We are in a very interesting time in Langley, there is a fine balance to be struck where we can maintain our city in the country, small town charm and provide our growing population with the amenities they desire.

I look forward to serving you as an elected representative for the next four years and am grateful for your ongoing support. [www.angiequaale.com](http://www.angiequaale.com)
