

## Candidate Statement

Michelle Sparrow

Over the past 7 years, it has been so rewarding to see many of my objectives become reality and to truly feel that I have made a positive impact.

I have stood strong for what I believe in, even when it was difficult and I am proud of the difference that I have made.

Some of those objectives include: improvements to our citizen engagement, a new online budget simulator, the implementation of a new Strategic Planning policy for Council and the creation of a new Community Amenity Contribution Policy to help address the funding needs our community experiences from growth.

I still have so much that I would like to be a part of and with your support I will continue to be a strong voice, bring innovation and a fresh perspective. I will continue my fight to see our Agricultural lands preserved and protect what makes Langley such a unique place to live, work to see the creation of an Arts & Cultural Center, continue working to find innovative ways to address the pressures our community faces from growth, and bring my voice to the important community planning work that lay ahead in the Brookwood neighbourhood.

I would be honored by your support and your vote on October 20th, thank you.
