

## Candidate Statement

Craig Teichrieb

Born and raised in the Lower Mainland, with most of the years spent living in the Langley's, I've seen a lot of positive change within Langley, and some change we can learn from.

I want to step forward for the role of councillor to be part of the growth, and help shape the positive. For me this role is about serving the citizens that elect you, listening and advocating for the decisions that are important to them.

As a firefighter, community safety is on the forefront of my interests. The policy of public safety is extremely broad, but the key is to ensure all services are adequate for the communities within the Township. Being a Brookwood resident, I also have a close interest in the future of the Brookwood-Fernridge community plan. The population growth needs to incorporate changes required to continue to make this the best place to live.
