

## Candidate Statement

### Stacey Wakelin

Stacey Wakelin has lived in the Langley Township for almost 13 years. She is the former co-owner of Langley's well-loved Clipper Street Scrapbook Co., Founder and Former Spokesperson for BC Families for Inclusivity; and organizer of Community events designed to encourage connection in the Township. Stacey is action-oriented, and her efforts with refugee's, with people experiencing homelessness and with LGBT youth over the last few years have made her a familiar face in the news. Stacey believes it is time for a council that puts people first when making decisions, whether those decisions are related to development, poverty reduction or future growth.

Stacey also believes there is room for more progressive voices on Township council, to create a balanced framework for development so that each Township resident is considered, respected and included in the community.
