

Candidate Statement

Blair Whitmarsh

I am completing my first term on Township Council and seeking re-election on October 20, 2018. I moved to Langley as a first year student at Trinity Western University 34 years ago and fell in love with the Township of Langley. My time in Langley has been wonderful and it truly has been a great place for us to raise our three daughters. The campaign will focus on five overarching themes: smart and sustainable development, affordable housing, a great place to raise our families including public safety, outstanding facilities for sports and the arts, and being fiscally responsible. There is no other place I would rather live

and we must work together to develop our community in a sustainable way. Fostering a local economy that creates local jobs, caring for the environment, and establishing walkable, livable communities helps us to shape a Langley that will make us all proud. blair@blairwhitmarsh.com
