

Candidate Statement

Harold Whittell

I've lived in Langley for 54 years, running a successful local business for 25. Langley is in my blood. I am grateful for the opportunities and lifestyle the Township has afforded me - its time to give back and build Langley for future generations to enjoy the same quality of life. Decisions made today have far reaching affects into the future.

I am a truly independent candidate who has fought the tough battles as a resident for 6 years. Protection of ALR lands, environmental stewardship, fiscal responsibility, heritage preservation, well-planned neighbourhood developments are all issues of concern. Its time for me to step up as a member of our council and address these issues from the resident's perspective. I offer you my commitment to be available to discuss your concerns, be well educated on issues and be effective in representing you on Council.
