

# Candidate Statement

## Anna Remenik

I've lived and worked in Walnut Grove in the 1990s, and Brookwood and Murrayville since 2007. My son was born at LMH. I'm also known as Anna R.

I'm committed to public service, and an active community-builder in the Township. My approach is based on meaningful consultation, active listening, and solutions through respectful dialogue. For several years, I've participated in delegations to the mayor and council. I've attended regular council meetings and public hearings.

During this time, I've listened to Township parents, grandparents, students, business owners, horse enthusiasts, farmers, developers, and community groups. I've heard your concerns, and seen firsthand the stress that accompanies uncertainty, poor infrastructure, increased crime, and community services that are challenged and over capacity.

My goals include prioritizing safety and preserving our quality of life, creating sustainable and vibrant communities, while protecting farmland and the ALR, and effectively managing and valuing our natural resources.
