

# Candidate Statement

**Marnie Wilson**

Having parented two children through the Langley school system, been an employee of the Langley School District as an Education Assistant and having held the position of President of CUPE 1260 the union representing support staff in the school district, I have learned the importance of consultation, collaboration and transparency. I am committed to listening to what the needs are and looking for progressive solutions that don't just fix an immediate problem but promote future opportunities. I am passionate about education and am excited to make improvements in the following areas: safety in schools, classroom supports and partner group relationships. I believe that together we can make a difference in the Langley School District and in turn improve the lives of everyone in our school community.
