

Candidate Statement

David Tod

David has lived in Langley since 2002, residing in the Willoughby area. He is a father of four (with a child attending a Langley school) and has taught for 34 years. David has firsthand knowledge of what is required to successfully navigate a child through the education system, especially those who experience difficulties with their learning.

David has prioritized engagement with the school district stakeholders (DPAC, parents, staff, District leadership and students) in his first term as trustee. David has acted decisively at the Board level on several key issues including the right sizing of Langley Secondary School, the building of the new RE Mountain Secondary School, and the expansion of elementary spaces in Willoughby. His top three priorities for this term are advocating for capital funding for new schools, revitalizing relationships with parents, staff, students, and our First Nations, and ensuring that the new education funding model is fair.
